CAREER OBJECTIVE

Motivated, fast-learning, and dedicated Computer Science student at Haramaya University with hands-on experience in full-stack web development, software engineering, and database management. Passionate about building efficient, scalable software solutions that solve real-world problems. Currently expanding skills through the freeCodeCamp Full Stack Developer certification program. Seeking an internship or entry-level software development role where I can apply my programming knowledge, contribute to meaningful projects, and grow alongside experienced professionals in a dynamic technology environment.

EDUCATION

Bachelor of Science in Computer Science | Expected: June 2027

Haramaya University - Harar, Ethiopia

- Currently in the 3rd year of a four-year undergraduate program in Computer Science.
- Core coursework includes: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering, and Web Development.
- Actively participating in practical labs and group projects that build real-world software development skills.
- Maintaining strong academic performance while engaging in extracurricular and volunteer activities.

TECHNICAL SKILLS

Programming Languages	Java, C++, JavaScript (ES6+)
Web Technologies	HTML5, CSS3, JavaScript, PHP, React.js
Tools & Version Control	Git, GitHub, Visual Studio Code
Databases	MySQL, PostgreSQL
Software Engineering	OOP, REST APIs, Agile basics, Software Testing
Operating Systems	Windows, Linux (Ubuntu)
Currently Learning	React.js (frontend), Full-Stack Development (freeCodeCamp)

PROJECTS & ACADEMIC WORK

Food Delivery System | 2024

Team Project | HTML, CSS, JavaScript, PHP, MySQL | Full-Stack Web Application

- Designed and developed a complete full-stack food delivery web application, covering both frontend and backend implementation.
- Built a dynamic, responsive frontend using HTML, CSS, and JavaScript, and implemented server-side logic with PHP.
- Integrated a MySQL database to manage users, menu items, orders, and delivery tracking data.
- Developed features including user registration/login, browsing menus, placing orders, and an admin dashboard for managing orders.
- Collaborated using Git and GitHub for version control and team coordination throughout the project lifecycle.

Student Management System | 2024

Team Project | Java | Desktop Application

- Designed and built a fully functional desktop application to manage student academic records including registration, course enrollment, grade tracking, and attendance monitoring.
- Applied core OOP concepts including inheritance, encapsulation, abstraction, and polymorphism.
- Used Java Swing for the GUI and integrated file-based data persistence to store and retrieve records across sessions.

Personal Portfolio Website | 2024 – Present

Individual Project | HTML, CSS, JavaScript, React | Web

- Developing a personal portfolio website to showcase projects, skills, and professional background to potential employers.
- Implemented reusable React components with clean, modular code structure following best practices.
- Applied responsive design principles to ensure the site looks professional on all screen sizes.

WORK EXPERIENCE

Sales Representative | 2023 – 2024

Various Retail Environments - Asela, Ethiopia

- Worked in customer-facing sales roles, developing strong communication and interpersonal skills.
- Consistently met and exceeded daily sales targets by understanding customer needs and recommending appropriate products.
- Managed product inventory, organized displays, and handled cash transactions accurately.
- Gained valuable experience in time management, negotiation, and problem-solving in high-pressure settings.

CERTIFICATIONS

Front-End Development Libraries Certification | Completed

freeCodeCamp - Online

- Completed certification covering front-end development libraries including React, Redux, Bootstrap, jQuery, and Sass, with hands-on projects demonstrating practical skills.

AI Essentials (DLS106) | Completed

Ministry of Education, Ethiopia (e-SHE Platform)

- Gained foundational knowledge in artificial intelligence concepts including machine learning basics, AI applications, and ethical implications of AI in society.

Certified Full-Stack Developer Curriculum | In Progress

freeCodeCamp - Online

- Currently completing the freeCodeCamp Certified Full-Stack Developer curriculum, covering responsive web design, JavaScript algorithms, back-end development, APIs, and databases.

CORE COMPETENCIES & SOFT SKILLS

- Fast Learner - Quickly picks up new tools, programming languages, and frameworks with minimal guidance.
- Dedicated & Hardworking - Committed to completing tasks with high quality and seeing projects through to the end.
- Problem Solving - Ability to break down complex technical challenges into manageable steps and implement effective solutions.
- Teamwork & Collaboration - Proven ability to work effectively in team settings, contributing ideas and supporting group goals.
- Communication - Clear written and verbal communicator; able to explain technical concepts to non-technical audiences.

- Adaptability - Embraces new tools, languages, and environments with enthusiasm.
- Attention to Detail - Committed to writing clean, well-documented, and maintainable code.
- Leadership - Demonstrated leadership through teaching, team projects, and mentoring peers.

LANGUAGES

- Amharic - Fluent (Native)
- Afan Oromo - Intermediate (Conversational)
- English - Intermediate (Reading, Writing & Speaking)
